We would like to extend the opportunity for your agency serve as a no-cost "Gold Sponsor" for the upcoming **2022 Wildfire Prevention Summit** hosted by the Western Fire Chiefs (WFCA). The planned date for this virtual 3- hour event will be May 3 with another session on May 4, 2022.

We expect the first day of the summit to have presentations potentially from Governor Schwarzenegger and USDA Forest Service Chief Randy Moore. The second day of the summit would potentially open with comments from U.S. Senator Mark Kelly with presentations from industry and fire community leaders.

The virtual summit is already fully funded and will be free for all participants to attend. The only thing we are asking of our listed "Gold Sponsors" is to promote the free event out to your members and contacts. This would generally consist of an email with the registration link to the Wildfire Prevention Summit and some social media postings about the upcoming event to your business contacts.

We are working to have the registration site go live by March 28th and would only need the approval to use your logo as a Gold Sponsor of the event by that date. Sponsors would then promote the event leading up to the May 3 and 4 streaming events.

If agreeable, please provide your authorization to use your logo (please provide high quality logo file) and agency name for promotions to Heidi Arnold at: [heidi@wfca.com](mailto:heidi@wfca.com)

I look forward to your response. Thanks for considering this partnership with the Western Fire Chiefs on this important upcoming event!

Sincerely,

Bob Roper  
Western Fire Chiefs Association, Policy Advisor
